HYDRAULICS

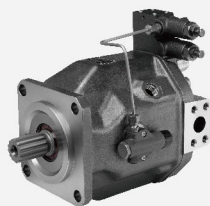

Schendeut Capital Limited is a Hong Kong–based investment firm that has reshaped the global hydraulics industry through strategic acquisitions. In 2021, the company acquired a prominent German hydraulic and technology R&D firm and rebranded it as Schendeut Hydraulics GmbH. This acquisition provided access to advanced research, innovative production processes, and robust quality control systems.

Building on this success, Schendeut Capital Limited further expanded its global reach by acquiring Schendeut Fluid Power in Vietnam, PT Schendeut Hydraulic Teknologi in Indonesia, Schendeut srl in Italy, and Schendeut Hydraulics in China. The cutting-edge technology and rigorous manufacturing techniques developed in the German R&D center were successfully transferred to the Italian and Chinese factories. This integration transformed these facilities into modern production hubs that manufacture high-quality hydraulic components for markets around the world.

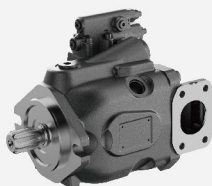

Schendeut Capital Limited’s unified approach—combining world-class R&D, efficient production, and strict quality assurance—has set new industry benchmarks. As the company continues to expand its international presence, it remains committed to innovation and operational excellence, ensuring its products meet the highest performance standards and satisfy global customer demands.

Efficiency in Motion Power in Action

Piston variable pump

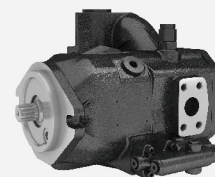

A10VSO 31 series
piston variable pump

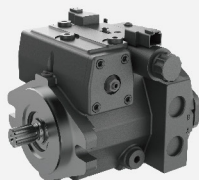

A10VSO 52/53 series
piston variable pump

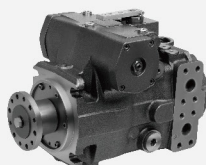

A10VNO series
piston variable pump

A10CNO series
piston variable pump

A10VG series
piston variable pump

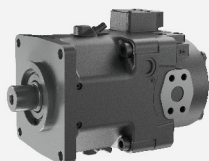

A4VTG series
piston variable pump

A4VG series
piston variable pump

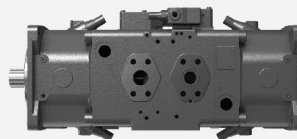

A4VSO series
piston variable pump

A11VLO series
piston variable pump

K3V / K5V / K7V series
piston variable pump

A20VLO series
piston variable pump

Efficiency in Motion Power in Action

Piston fixed pump

A17FO series
piston fixed pump

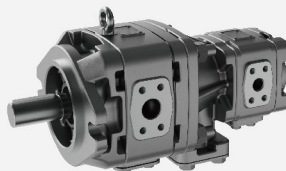

A2FO series
piston fixed pump

Gear pump

IGP series
single internal gear pump

IGP series
double internal gear pump

AZP series
iron casting external gear pump

AZP series
aluminum casting external gear pump

Torque You Can Trust Performance You Can Feel

Piston fixed motor

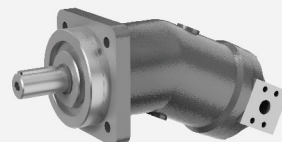

AA2FM series
piston fixed motor

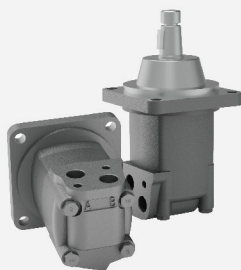

A2FM series
piston fixed motor

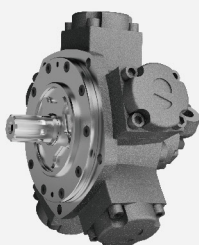

A2FE series
piston fixed motor

A2F series
piston fixed motor/pump

Orbital motor

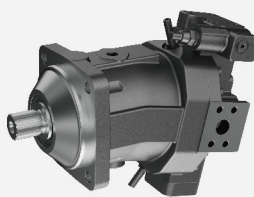

MD series
radial motor

Piston variable motor

A6VE series
variable plug-in motor

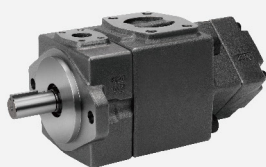

A6VM series
piston variable motor

Smooth Operation

Vane Precision

Vane pump

PVL series
vane pump

PVL series
vane pump cartridge kit

VQ series
vane pump

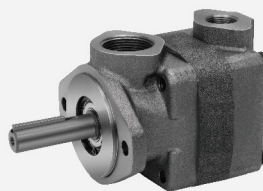

VQ series
vane pump cartridge kit

V series vane pump

V series vane pump
cartridge kit

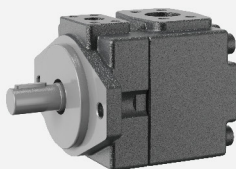

V10 and V20 series
vane pump

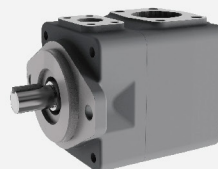

V10FP V20FP series
vane pump

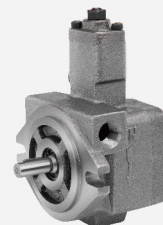

SQP series
vane pump

PV2R series
vane fixed pump

T6 series
vane fixed pump

VPV series
variable displacement
vane pump

Precision Control Unlimited Power

Hydraulic industrial valve

4WE6 solenoid operated
directional valve

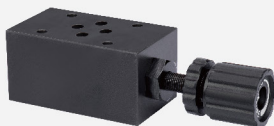

4WEH electro-hydraulic directional
control valve

MPCV modular pilot operated
check valve

DBW pilot solenoid operated
relief valve

MTV modular
throttle valve

EBG pilot proportional
relief valve

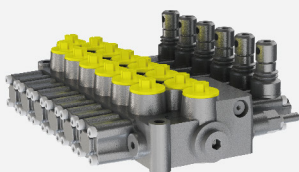

EDG direct-acting proportional
relief valve

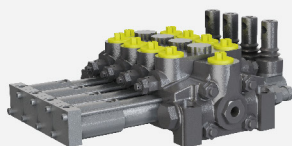

EFBG proportional relief and
speed control valve

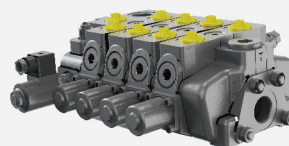

Control block and manifold

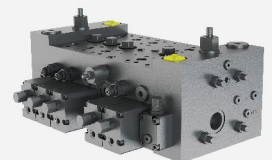

MB45 series
directional control valve block

MA-D4 sectional series
directional control valve block

DLP series
control valve block

EM7 series
control valve block
